WEB TECHNOLOGY CASE STUDIES

Consolidated Project Report

Student Name: Koduru Naga Deepika

Roll Number: 26000091

Branch: CSE

Section: 2

Selected Case Studies :

Case1. Personal Portfolio Website

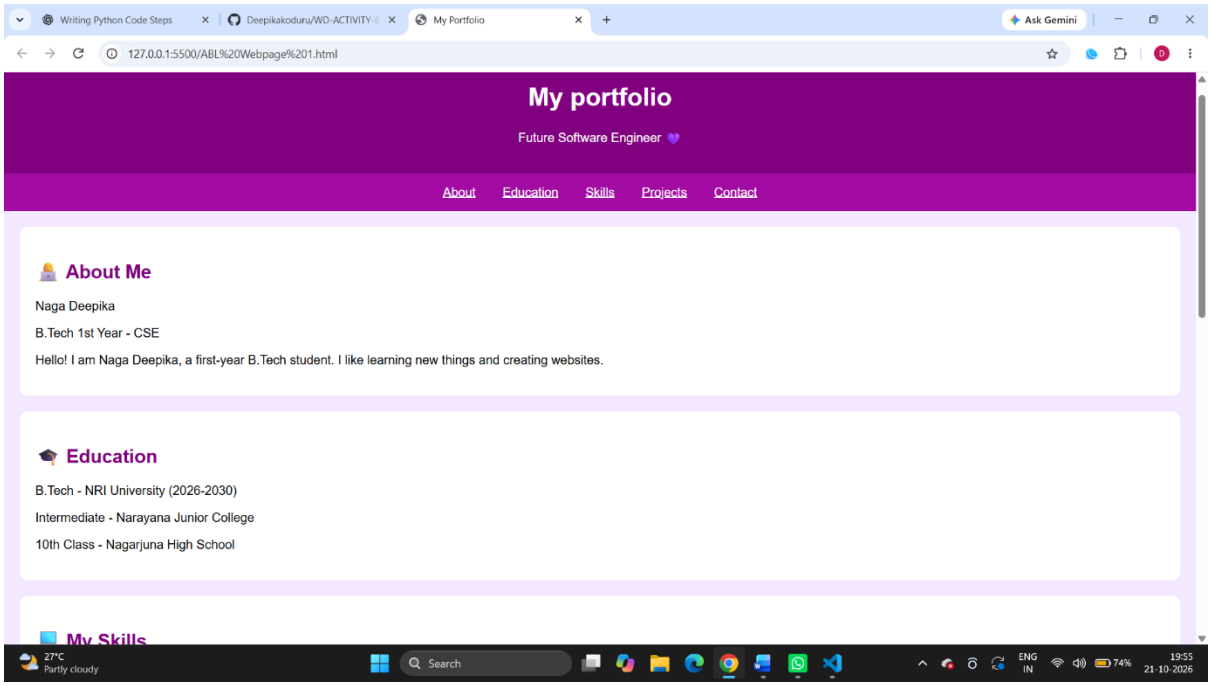

Case 26. College Fest Management Website

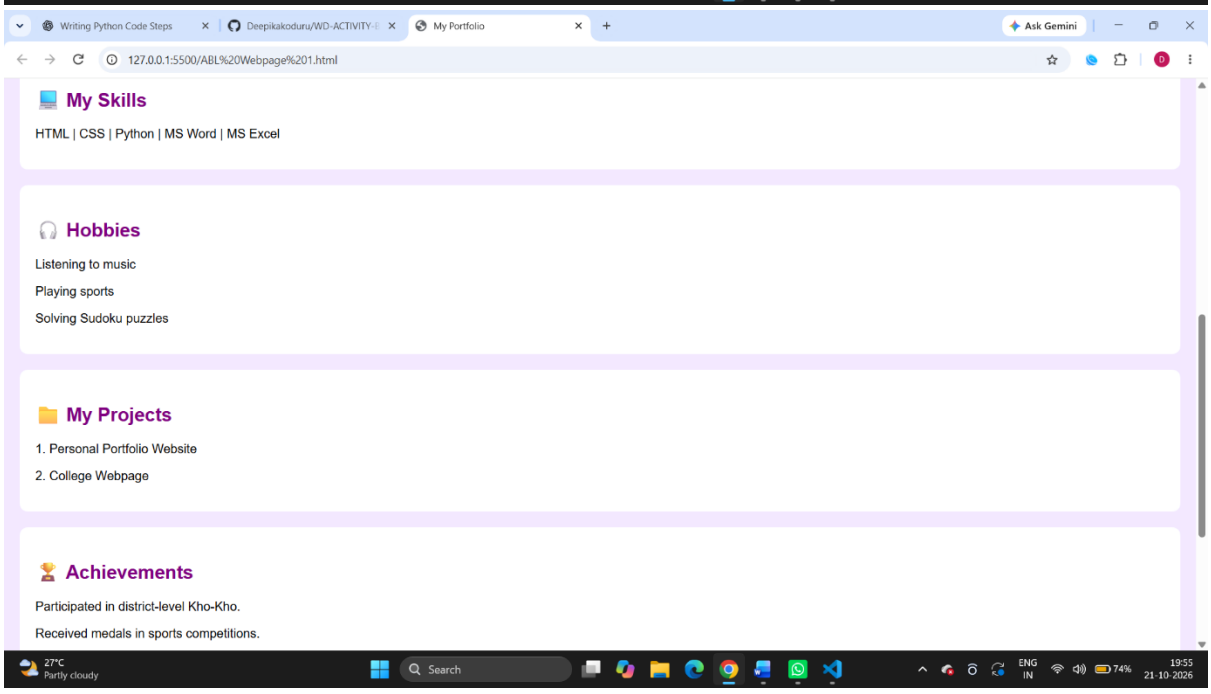

Case 30. Travel Ticket Booking Website

Topic: Personal Portfolio Website

Case Study 1: Personal Portfolio Website

Objective: Present a student's profile, education, skills, projects, achievements, and contact information. Features: About Me, Education, Skills, Hobbies, Projects, Achievements, Contact, and navigation links. Technology and benefits: HTML structures the content and CSS styles the layout. The website provides a clear online profile for teachers, peers, and collaborators.

Topic: . College Fest Management Website

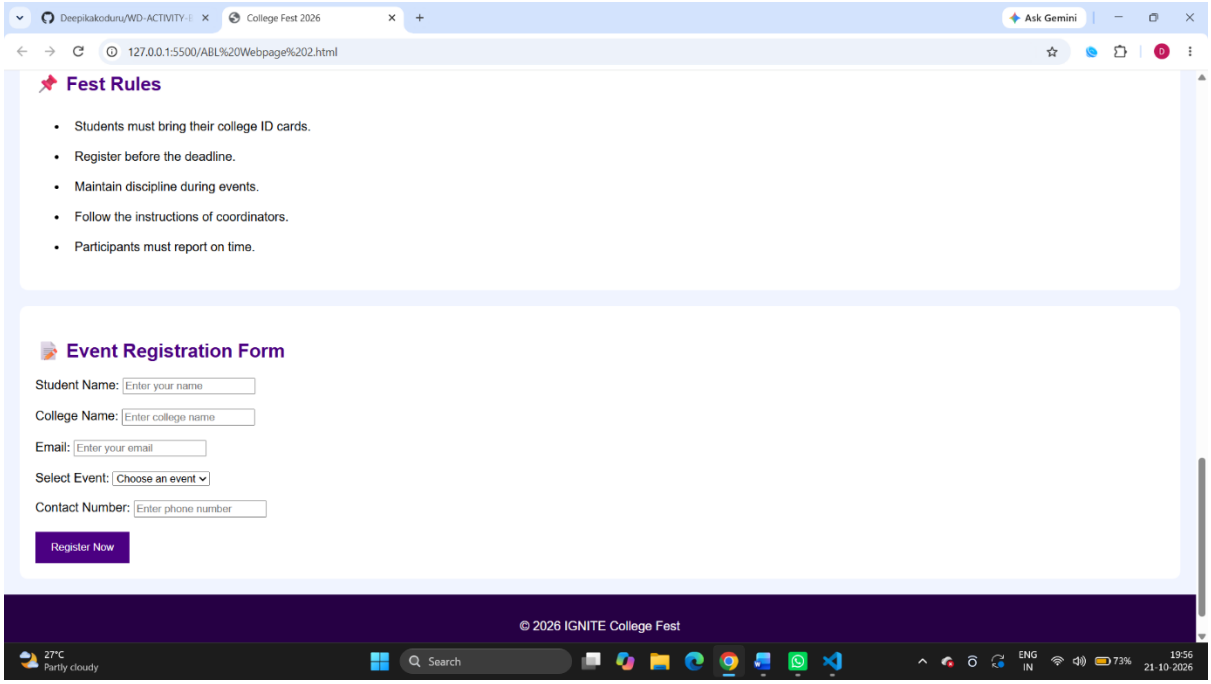

Case Study 26: College Fest Management Website

Objective: Share college fest information and help students explore activities and registration details. Features: Technical and cultural events, workshops, schedule, rules, and event registration form. Technology and benefits: HTML structures the content and form fields; CSS styles event cards, navigation, and page sections. The site makes fest information easy to find.

Output:

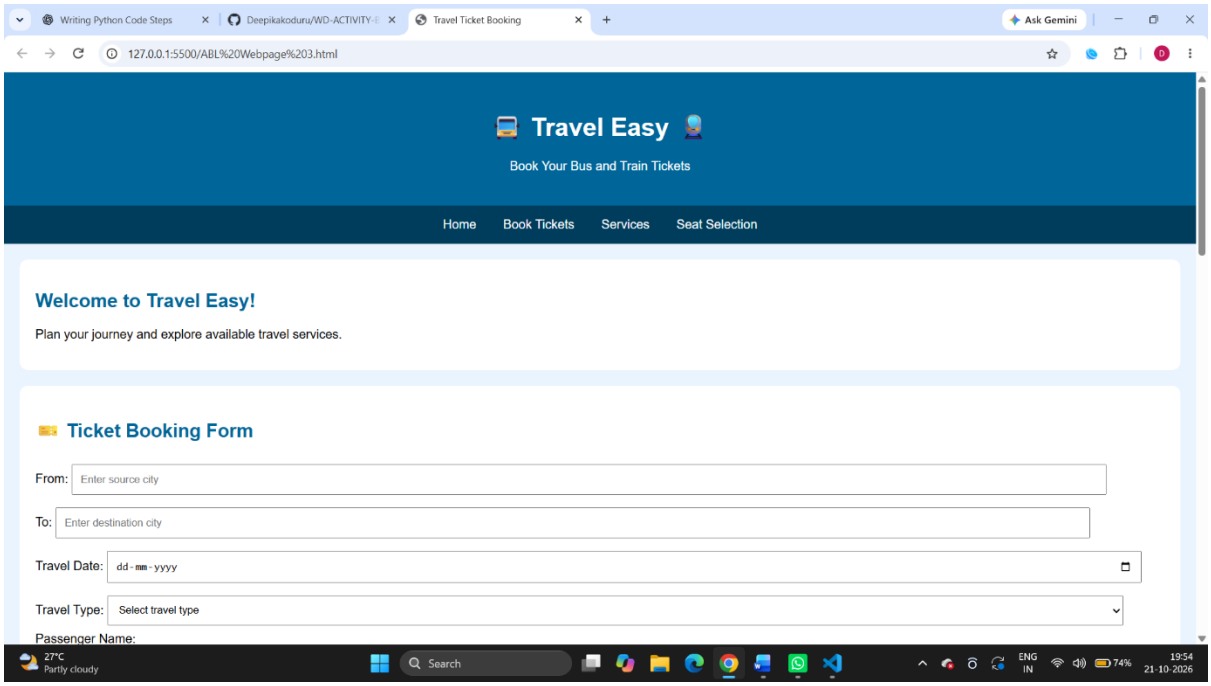

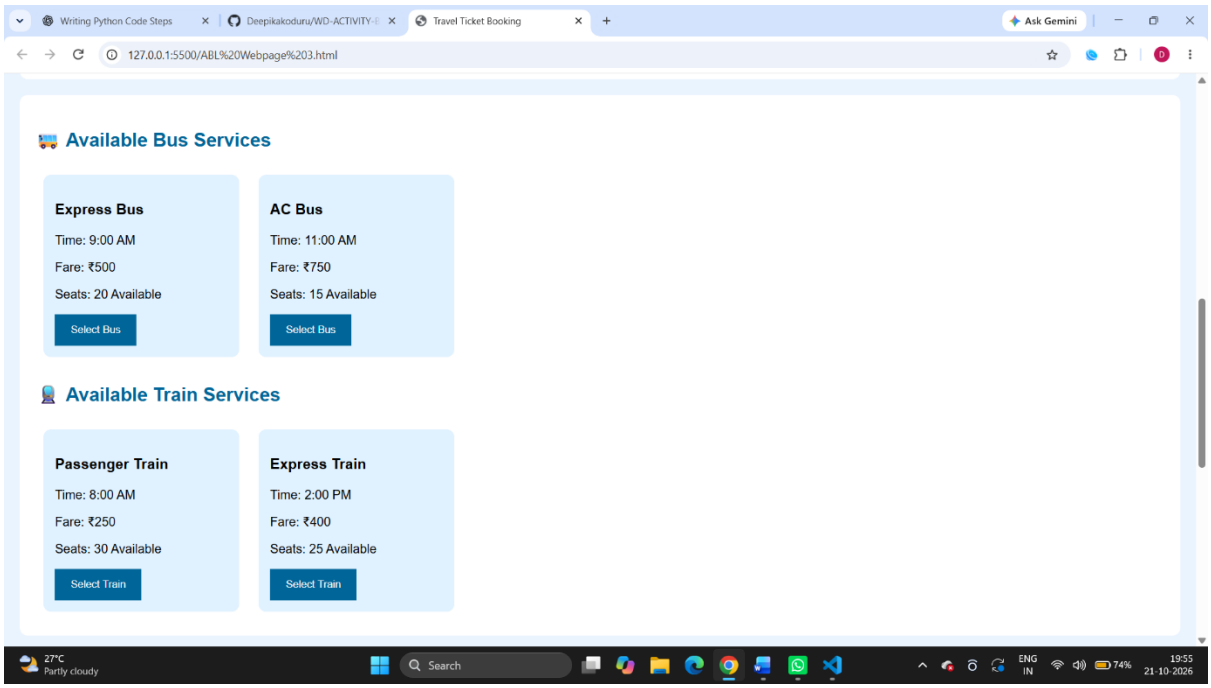

Topic: Travel Ticket Booking Website

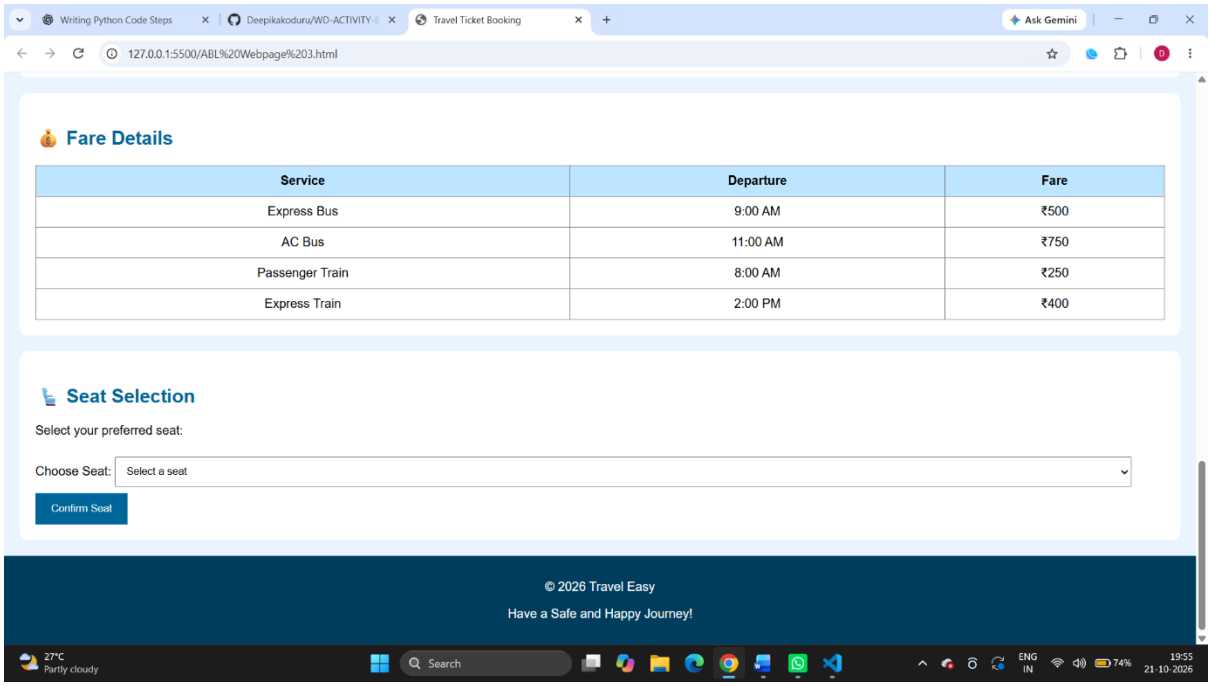

Case Study 30: Travel Ticket Booking Website

Objective: Let users enter journey details and explore bus and train ticket options. Features: Source/destination, travel date, travel type, passenger details, available services, fares, departure times, and seat selection. Technology and benefits: HTML creates forms and service tables, CSS styles the interface, and JavaScript can validate inputs and add interactions. A backend is needed for real bookings and payments
